

## YOUR PROJECT, OUR EXPERTISE

Hutchinson Paulstra supports you in selecting the suspension solution best suited to your needs.

Thanks to dedicated calculation software and the analysis of your technical data, we design **tailor made solutions**, either from our standard range or developed specifically for you. **Guaranteed performance and reliability.**

### Your benefits:

- Analysis of your operating environment
- A network of approved distributors
- Management of stocked references
- Proposal of standard or customized solutions

## VIBRATION AUDIT AND MEASUREMENTS : A TURNKEY SOLUTION

We accurately identify the sources of vibration in your installations to provide you with a complete diagnosis and tailored recommendations for vibration control solutions adapted to your needs.

### A comprehensive and detailed service:

- On site intervention by our experts
- Vibration measurements on your equipment
- In depth data analysis by our technical department
- Delivery of a detailed report with targeted recommendations

## PAULSTRASOFT MOBILE : TECHNOLOGY SERVING YOUR PERFORMANCE

Turn your smartphone into a vibration diagnostic tool!  
With PAULSTRASOFT MOBILE, measure the vibration frequency of your machines in real time and instantly identify the most suitable antivibration support.

### Your benefits:

- Fast and reliable on site diagnostics
- Immediate recommendations
- Simplified implementation
